## LIP DUB

This great fun exercise enhances corporate unity by focusing on collaboration rather than competition, on support rather than winning. It builds relationships, breaks separation walls, and leaves a lasting taste of unity. Collaboration has never been so colourful!

Every person will be involved, starting in a different area and provided with prop material and costumes. The team must then collaborate to create an entertaining music video that tells their story.

A Lip Dub is a single-take music video travelling through different settings and environments. The team will rehearse lip-synching, dancing, and acting - then film the whole song in one continuous take.
