
LEADERSHIP SKILLS

You recognize a leader when you see one, but it takes more than that to be one.

Learn the theory and practise the skills of current leadership theory. Experts coaching is given throughout as well as an ongoing personal action plan.

Overview

Patrick Lencioni once said, 'in order to be successful in leadership, an individual must 'master a set of behaviors that are at once theoretically uncomplicated, but extremely difficult to put into practice everyday'.

This course equips those who are starting out in leadership with the knowledge and the confidence through hands-on exercises to build a solid platform. We help you to understand the art of leadership and then equip you for the practicalities.

How this Course Works

This is a hands-on course in which you will get to grips with leadership from the start. We teach contemporary leadership theory that is current and culturally relevant to the Middle East and North Africa region. Throughout the course, you will engage in a practical exercise called 'Crystal Water'. This will allow you to practise taught skills. Our trainers will facilitate group reviews and provide informal and formal coaching to ensure that you leave with tailored knowledge, experience and feedback.

What you will learn

By the end of the course you should be able to:

- Understand leadership – what it involves, when you are doing well and how to improve
- Know how to get sustainable results through teams of people
- Appreciate how to recruit the right people and build a motivated team
- Understand how to solve problems as a team
- Know how to deal effectively with conflict

What you will get

On the course you will receive the following:

- Course Workbook
- Feedback & Action Plan
- Red Rock International Certificate of Attendance

The Experience:

Core Values
Character Bingo
NASA Simulation
